

THE WESTERN GAS COMPANY OF WASHINGTON

BREMERTON, WASHINGTON

June 7, 1945.

Mr. Jack Taylor,
Supervisor of the Department of Fisheries (Pollution Dept)
State of Washington
Olympia, Washington

Dear Mr. Taylor:

At your suggestion Mr. Brown was over last Saturday and went over the situation at the Gas Plant with Proffessor Tymstra of the University of Washington and they have outlined certain changes in our system which we feel confident will clear up the water so it will not be objectionable to the Department of Fisheries.

When I talked with you, you suggested that you might be able to stop off in Bremerton and perhaps go into this matter with us and Mr. Cohen.

I wish to thank you for your courtesy in sending Mr. Brown over and for the additional help which you can give us.

Yours truly,

THE WESTERN GAS COMPANY OF WASHINGTON
